Dear pastor Mark, greetings from Kathmandu!

I hope and pray that you are doing well. Had been planning to write to you since Christmas but was not able to. Wish you and your family a blessed New year 2020!

We had a wonderful Christmas and New year. During Christmas we were able to preach the gospel to many people. Then we as familu wanted to take a break right after Christmas, but could not because of our Daughter's school. So, we pushed it a week back. We celebrated new year with the church youths.

After that we as a family took a break for a week to Siliguri India and Bhutan. We spent sometime with my friend and his family in Siliguri and then we went to Bhutan. We really felt it to be a blessed time with family. Kids and Isha were very delighted that we made it happen. Thank you very much for your gift, that was of great help for this trip.

After returning from there, I was also able to spend few days in Eastern Nepal for trainings. This became a great time for me to get connected with some pastors and leaders from that region with whom we would be able to work together in the days to come.

With the church at the new location, it has been going great. We spent little more than three lakhs ($3000) for the renovation and decoration of the new location. We were also able to purchase a good sound system for the church within that money. We have also been seeing some new faces in the church. We believe and pray God would continue to grow us in all dimensions.

We have also taken one more intern for the church who helps us with the music and worship. With him now we have three interns and they have been getting involved with us very well.

Unfortunately, I have not been able to work towards fulfilling the conditions of Acts 29 (feeling very embarrassed). But I want to complete it by the end of February.

Apart from that I have been enjoying my reading of 9marks and have been looking forward to having discussions tomorrow, the 20th.

I have also attached few photos of our time of break.

With sincere regards,
Narayan
